Lynlee Sheeler
Systems Plus Office Services
102 West Franklin St
Steelton, PA 17113

Dear Lynlee,

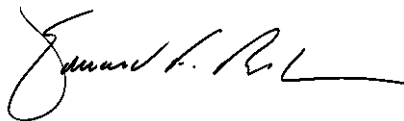

I am writing to let you know that our Brownstown project is now complete. The facility is very comfortable for our patients and staff. Without the help of your dedicated team, we would not have been able to achieve our design and budgetary goals. The personalized service of the Systems Plus team helped us evaluate, select and implement a variety of interior furnishing solutions. Our physicians are especially impressed with their work space. The combination of functionality and relaxing atmosphere has truly met their needs.

Management appreciated your prompt response to our requests, the accurate billing and timely delivery/set up. Thanks again for saving our grand opening with your rental furniture. Without it, our first day would have been a real challenge!

We were not surprised by your performance in this project as our past experience with Systems Plus has also showcased your creativity and skill with space solutions. We have also appreciated your custom work on the utilization of recycled work stations in our Lancaster office. Your design and advice have helped us make prudent purchases on the used equipment market.

Once again the physicians, staff and patients of RGAL thank you for your commitment to excellence. Please expect an invitation to our open house which will be scheduled for October.

Sincerely,

Edward F. Rish, CPA
Practice Administrator
